Student Behaviour

July 2021

1. Vision

The vision for Catholic Education Sandhurst Limited (CES Ltd) is to provide, in partnership with our families, stimulating, enriching, liberating and nurturing learning environments in each of the Catholic school communities within the Diocese. At the heart of this vision is our commitment to the ongoing duty of care that we have for the safety, wellbeing, and inclusion of all children and young people.

We believe:

- that the values of the Gospel are central to who we are, what we do, and how we act
- in leadership encompassing vision, innovation and empowerment.

2. Introduction

Sandhurst Catholic Schools offer a broad, comprehensive curriculum imbued with an authentic Catholic understanding of Christ and his teaching, as well as a lived appreciation of membership of the Catholic Church.

Parents and guardians, as the first educators of their children, enter into a partnership with CES Ltd to promote and support their child's education. Parents and guardians have a responsibility for maintaining this partnership by supporting the school in furthering the spiritual and academic life of their children. As the governing authority of Sandhurst Catholic Schools, CES Ltd honours this duty through striving to provide Catholic schooling for all those seeking this for their children and who are willing to support the values and purposes of CES Ltd.

All Sandhurst Catholic Schools must ensure the policies and procedures that are implemented at school level are consistent with this CES Limited Student Behaviour Framework.

5. Principles

The Guiding Principles for effective student behaviour:

- Education on standards of behaviour is expected for students attending the school; healthy and respectful relationships (including sexuality), resilience and child abuse awareness and prevention as required under *Education and Training Reform Act 2006 (Vic)* and [Ministerial Order 870, Child Safe Standards – Managing the Risk of Child Abuse in Schools](#).
- Zero tolerance for child abuse and prohibition of corporal punishment are in all Sandhurst Catholic schools.
- When behaviour does not meet expectations, and an administrative response is deemed necessary, the principles of natural justice and procedural fairness will apply.
- The recognition that all members of the school community are worthy and have a right to work and learn in a safe, positive environment.
- The best interests of the child are the primary consideration.
- All students have a right to be supported to learn positive behaviours, self-manage and self-regulate their behaviours.
- Positive behaviour is best learnt and supported in a whole-of-school approach that incorporates a multi-tiered continuum of support.
- It is expected that behaviour expectations meet and reflect the needs of each Sandhurst Catholic school community and promote the values of honesty, fairness and respect for others.

- All members of the school and wider community share the responsibility of supporting positive student behaviour by developing and promoting high-quality relationships.

Application of Framework

- All Principals of Sandhurst Catholic schools are to ensure application of this Framework and related Policies, Procedures and Guidelines, in compliance with, and within the parameters of, this Framework.

9. School-wide Positive Behaviour Support (SWPBS) Framework – Overview

SWPBS is a process that establishes systems and practice for teaching social and behavioural skills which in turn enhance learning and teaching. Schools have a responsibility to provide an education to students in safe and predictable environments. Establishing a positive, proactive, preventative school-wide set of behavioural expectations is a necessary first step for enabling schools to achieve their goals and responsibilities.

SWPBS is an organisational framework, and is not a specific "program", "model", "approach", "tool", or "specific curriculum", rather a compilation of research- validated and effective practices, interventions, and systems change strategies.

SWPBS provides a framework for:

- improving the social behavioural climate of schools
- supporting or enhancing the impact of academic instruction on achievement
- increasing proactive, positive, preventive management while decreasing reactive management
- integrating academic and behaviour supports
- improving services for all students, including students at risk and students with identified disabilities or diverse learning needs.

Tiered model of prevention

SWPBS is designed to meet the unique behavioural needs of each school and every student through a tiered model of prevention. The tiers, operationalise prevention and emphasise intervention ranging from preventing the development of inappropriate behaviour (primary) to reducing the impact or intensity (secondary or tertiary) of problem behaviour occurrences. This continuum of school-wide, instructional and positive behaviour supports is a defining feature of SWPBS (Walker et al, 1996; Sugai & Horner, 1999; Sugai & Horner, 2006).

Three tiers of prevention

Tier 1: Universal Prevention (All)

School-wide interventions supporting all students. Tier 1 supports provide the foundation for learning and behaviour for all students. For most students, this level of support provides what they need to be successful and to prevent future behaviours of concern.

Tier 2: Targeted prevention (Some)

Secondary, high efficiency, rapid response, targeted interventions, supporting groups of students at risk. School implements supports designed to provide additional practice and feedback opportunities for groups of students with specific skill deficits. The skills developed support students to be successful participants in social and academic programs of the school.

Tier 3: Intensive, Individualised Prevention (Few)

Tertiary supports are the most intensive support the school offers; they are assessment - based, intensive, durable procedures supporting individual students. This level of support will often require plans and goals related to academic and behaviour support.

10. Procedures

The school level procedures must:

- explicitly prohibit corporal punishment and make the best interest of the child a primary consideration in its approach to student behaviour;
- support positive student behaviour by developing and promoting a Student Code of Conduct;
- reflect procedural fairness and steps for managing escalations including suspensions and expulsions of students;
- require suspensions and expulsions to be recorded and maintained in a register and outline procedures for maintaining the register;
- identify the roles and responsibilities of staff in implementing whole school plan to support positive behaviour, including suspensions and expulsions;
- outline school's approach to student behaviour, which takes into consideration personalised adjustments based on student needs, and that are culturally, developmentally and psychologically appropriate;
- outline the school's response to:
 - all forms of bullying
 - aggression
 - drug and alcohol misuse
 - risks of suicidal behaviour
 - truancy;
- include rules regarding personal use of mobile and other electronic devices and responses to breaches of these rules;
- include school's strategy for communicating with parents on Students' behaviours and how the school communicates these policies and procedures to the school community;

- outline school’s strategy for deciding on disciplinary measures, which considers the best interest of the child and safety and wellbeing of all school staff and all other members of the school community;
- Address school’s approach to coordinating with external agencies and agreed behaviour interventions or therapies provided by external practitioners or agencies;
- address school’s approach to Student Behaviour Support where the need is identified, i.e., seeking advice from experts, consulting parents to inform personalised student behaviour support plans etc.;
- use least restrictive intervention that will prevent or de-escalate student conduct or emotional states that risk harm to self or others and outline circumstances when it may be necessary to use restrictive interventions in accordance with **Restraint and Seclusion Policy**; and
- reflect reporting to the CES Ltd Board via Executive Director on matters relating to student suspensions and expulsions.
